

K-LOVE is a wonderful station to have available in our home. My entire family listens to the music and we are encouraged as we listen to the music and the testimonies. We do not watch the local news because there is so much more bad news than good. However, listening to K-LOVE keeps us updated with what is going on in the world without the junk. This station is always playing uplifting music that I believe helps people to have hope in the midst of tragedy. I sincerely believe the loss of this station would have a negative effect on our local community.
